

VALMIK KANNOR

Full Stack Developer (MERN)

Pune, Maharashtra, India | github.com/ValmikKannor

PROFESSIONAL SUMMARY

Motivated Full Stack Developer with hands-on experience building scalable web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js). Proficient in REST API development, authentication systems, role-based access control, and responsive UI design with Tailwind CSS and Bootstrap. Passionate about writing clean, maintainable code and contributing to open-source projects. Eager to leverage strong problem-solving skills and a solid foundation in JavaScript to deliver impactful software solutions.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Bootstrap, Tailwind CSS, Responsive Web Design

Backend: Node.js, Express.js, REST API Development, Authentication & Authorization

Database: MongoDB, Mongoose, CRUD Operations

Tools & Platforms: Git, GitHub, VS Code, Postman, npm, API Testing

Concepts: MERN Stack, MVC Architecture

Soft Skills: Problem Solving, Self-Learning, Attention to Detail, Team Collaboration, Open-Source Contribution

WORK EXPERIENCE

Web Developer (Backend) | **Firefist Solutions** July 2025- Jan 2026

- Developed and tested RESTful APIs using Express.js and Node.js for the CodeHub-India class website platform, ensuring reliable data exchange between client and server.
- Implemented and validated CRUD operations (Create, Read, Update, Delete) for course and user management modules, improving backend reliability.
- Performed systematic API testing using Postman, identifying and resolving integration issues to reduce error rates during development.
- Collaborated with frontend team to integrate backend APIs, accelerating feature delivery and maintaining consistent data contracts.

PROJECTS

WanderLust — Hotel Booking Platform | Tech Stack: *MongoDB, Express.js, Ejs, Bootstrap, Node.js,*

- Built a full-stack hotel booking web application using the MERN stack, featuring end-to-end listing management with CRUD operations for property owners and guests.
- Implemented secure user authentication and authorization using JWT-based session management, protecting user data and restricting unauthorized access.
- Designed and integrated role-based access control (RBAC) differentiating host and guest permissions, improving platform security and user experience.
- Developed a responsive, mobile-first UI using Tailwind CSS ensuring consistent cross-device performance across mobile, tablet, and desktop viewports.
- Structured RESTful API endpoints following MVC architecture, improving codebase maintainability and scalability for future feature additions.

EDUCATION

Bachelor of Business Administration (Computer Applications) | [MSG College, Malegaon](#) 2024

CGPA: 6.99 / 10

HSC (Class XII) | [Shenge Jr. College, Arvi](#) 2021

Percentage: 77.33%

CERTIFICATIONS & INTERESTS

- Open-Source Contribution — actively participates in collaborative development projects on GitHub.
- AI Research & Experimentation — explores emerging AI tools and integrates them into development workflows.
- Pursuing continuous learning in cloud deployment (AWS/GCP basics) and advanced React patterns.
